

**HOPSHARVESTER™**

# Harvesters

## Hopster® 5P, 5G

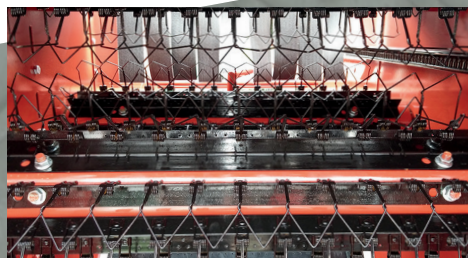

**Hopster® portable harvesters provide the freedom to harvest when hops are at their peak.** Available as a PTO-powered implement (5P) or a self-powered unit with gasoline motor (5G), hops can now be picked and cleaned on-farm at speeds up to 100x faster than picking by hand. The Hopster is specifically designed as the entry-level solution for small farms to produce at a commercial scale and profit.

**Features:**

- 40-200 strings/hour, 85-95% efficiency
- Adjustable picking drums with Dauenhauer™ fingers
- Air-cleaning system with 3 PVC dribble belts
- Variable-speed carousel feed
- Hydraulic outfeed conveyor
- Meets OSHA safety standards
- Dimensions: 19'6"L x 6'W x 8'4"H
- Weight: 3600 LBS (5P), 4100 LBS (5G)

**Recommended Tractor (for 5P):**

- 540, 20-HP PTO<sup>(2)</sup>
- Remote hydraulics, one pair with 4 GPM flow

**Hopster® 5G****Hopster® 5P****The Hopsharvester™ Advantage:**

- Trusted by 150+ farms throughout North America
